# About Us

Torrent Polymers is one of the few key industry players involved in **Manufacturing** and **Exporting** of a range of High Quality Pipe Fittings since its establishment. Since our humble beginnings, we are effective in building lasting customer relationships by providing **durable, high quality products at competitive prices**. Infact, our prices are probably the **among the lowest in the Indian pipe fittings industry!**

Our products are popular among our clients for their **durability, low maintenance, precise design and smooth finishing**.

Recently, we have been highly active in the state of bihar, meeting the demands of our customers there by supplying all the products used in the **Bihar Jal Nal Yojana Scheme**

We are fully engaged in fulfilling the precise needs of our customers . We aim to meet their standards for performance and durability. We dare to explore unique cutting edge manufacturing technologies and methodologies, to meet their demands. Our top engineers at our modernized R&D centers are working around the clock and their commitment and accountability can be seen in our offered new and improved product designs.

Discipline and honesty are our driving forces and we don't plan to stop anytime soon.
